U. S. DISTRICT COURT  
MID. DIST. TENN.

on June 13, 2017 Core civic inc. had a outbreak of the scabies and i became infected by theme. where i icked all nite and day until my skin bled. Core civic inc allows Females straight from the streets with out Ruen screening theme for the mites or anything. staff allows females Clothes to be washed with ours. when i was icking it took 2½ week's before i was even looked at. in that time i was in so much Pain. i told staff even showed theme the spots and blisters on my fingers and toes. And they did nothing until the media Got involed and the court. we was locked down for 3days no shower no Phone calls or no lebal Calls they tryd to keep from the public and for that the Public the court's and other inmates had to suffer for Corecivic's dilebertly indifference. they did not consider my health or anyones health as long as they made money. what Corecivic has allowed to happen they should be held accountable for there actions. for not keeping a safe enviromen for my self and the Public. They also did not check every inmate. They came in and said for us to Sighn the Papers or go to segregation or loss of good days

by telling staff members that i was in so much  
Pain and they refused to help me now i have  
scars from the bites, if you look at case
